RE The Adirondack Foundation and Adirondack Foreign Language Enhancement Fund

A grant was awarded to the Tupper Lake High School World Language Department in the amount of \$2,100 for replenishing classroom supplies and refreshing/supporting teaching methods and curriculum from the Adirondack Foundation and the Adirondack Foreign Language Enhancement Fund. The Foundation works to enhance the lives of the people in the Adirondacks through philanthropy. This grant will allow our department to purchase materials needed throughout the school year, attend conferences, and provide us with access to online resources we like to use in our classrooms. Our department intends to use them to provide our students with the usual supplies such as pencils, paper, crafts, leveled readers, and more. We also intend to participate in reputable conferences that we typically would not be able to, given the amount of funding we have had in the past. We look forward to using these funds to keep our classrooms running and to do so with clear communication and record keeping.
